"Into each life some rain must fall,
Some days be dark and dreary."

DESSERTS FOR A WEEK

Even a plain rice pudding, wholesome and good as it is, may be made a work of art by proper garnishing.

Vanilla Rice Pudding.—Pour three cups of water over one-half cup of rice, heat to the boiling point and cook five minutes, stirring constantly with a fork. Drain, add two cups of cold water, one-half teaspoonful of salt and cook until the rice is soft. Scald one and one-half cups of milk in a double boiler; mix three tablespoonfuls of cornstarch and one-fourth cup of cold milk, stir until smooth and add to the scalded milk, stirring constantly; cook and stir until the mixture is thick; cover and cook ten minutes. Beat the yolks of two eggs until light, add one and one-fourth cups of milk, turn into a fancy dish and chill. When ready to serve, garnish with whipped cream roses with a bit of bright-colored jelly in the center of each. Press the cream through a pastry bag or a small paper cone.

Yankee Plum Pudding.—Take one cup of finely-chopped suet, add one cup of New Orleans molasses, sift three cups of flour with one and one-half teaspoonfuls of soda, one teaspoonful of cinnamon, one-half teaspoonful each of cloves, nutmeg and salt; add alternately with one cup of sweet milk, reserving some of the flour to dredge one cup of raisins and one cup of walnut meats broken in bits, mix well and turn into a buttered mold and steam three hours. Serve with an egg sauce. Beat two eggs, add one-half cup of sugar and when dissolved, add one-half cup of hot milk and a teaspoonful of grated lemon rind.

Queen of Puddings.—Cut one cup of toasted bread into one-half-inch cubes, beat the yolks of three eggs and the white of one until thick. Add one-half cup of sugar, one teaspoonful of vanilla and two cups of milk. Pour over the bread and bake in a moderate oven, then cover with one cup of stewed, unseasoned apple and cover with a meringue, using the other whites. Bake until brown.

Nellie Maxwell

"Soon as the evening shades prevail,
The moon takes up the wondrous tale
And nightly to the listening earth
Repeats the story of her birth."

SEASONABLE DESSERTS

A pie of any variety except mince is in season all the year, for pie seems to be the great American dessert.

Chocolate Cream Pie.—Melt two squares of chocolate, add one-half cup of sugar, four teaspoonfuls of cornstarch, one-fourth of a teaspoonful of salt, the yolks of three eggs slightly beaten and two cups of milk, stirring constantly; add one tablespoonful of vanilla and turn into a buttered pastry shell. Spread with a meringue and brown in the oven.

Buttered Bread and Raisin Pudding.—Butter slices of bread, removing the crusts, to fill a three-pint baking dish. Arrange in the dish, buttered side down. Sprinkle a thin layer of shredded, seeded raisins between the layers. Cover with four cups of milk to which three slightly beaten eggs have been added, one cup of brown sugar, one-half teaspoonful of salt and the rind and juice of a lemon. Bake slowly two hours. Serve with a hard sauce.

Cranberry Pie.—Cream five tablespoonfuls of butter with one-half cup of brown sugar, and one well-beaten egg and one cup of flour. Chill and roll out into three rounds and bake. Cook cranberries with three tablespoonfuls of cake crumbs, sugar and water until thick. Cool and spread between the layers. Cover with whipped cream and serve in wedge-shaped pieces.

Dutch Apple Cake.—Sift together two cups of pastry flour, one-half teaspoonful of salt, three teaspoonfuls of baking powder, three teaspoonfuls of sugar; beat the yolks of two eggs until thick and light, add to the first mixture, with three tablespoonfuls of melted butter and one cup of milk; beat until smooth, cut and fold in the whites of the eggs, beaten stiff and dry. Spread the mixture in a buttered shallow pan to the depth of an inch. Pare, core and cut apples in eighths to cover the top, pressing the sharp edges into the batter in rows. Sprinkle with cinnamon and sugar and bake in a hot oven. Serve hot with lemon sauce.

STORED UP FOR HISTORIAN

Writer Calls Attention to Real Value of Congressional Record, Not of Common Knowledge.

The Congressional Record is the butt of the humorist of today and the storehouse of political knowledge for the historian of tomorrow. It is the target at which the satirist shoots his arrows of wit, but it contains a compendium of information which stands as a permanent contribution to political science through the ages, when those who have cast their jokes and sneers have been forgotten. A mariner cast away on a desert island with nothing to read but the debates of congress could come away in a few years as crammed with facts as a college student on the eve of an examination. He would know something about nearly every subject under the sun, including romantic literature and poetry. He would have a substantial grasp upon the development of government, economics and political philosophy, says the Washington Post.

Every man who has ever spoken on the floor of the senate or house has added something to the sum total of what the Record contains. Even the errors propagated in debate are useful; they help one to ascertain the ultimate truth. Thomas B. Reed once said that every member of the house was an expert on some one thing; that it would be discovered that there was a substantial reason explaining why every man was there. A great deal of matter gets into the Record every day which at the time may seem irrelevant. With the passing of the years importance is emphasized. In 2022 the Congressional Record of today will be an invaluable repository of facts bearing upon all phases of life as it is now lived.

HAD NEW TELEGRAPHIC IDEA

German System of Communication in Warfare Was Something of an Innovation Then.

During the war the scientific world was much interested by the report that the German army was using a method of communication known as "telegraphy through the ground." Subsequent investigation by the interested nations appeared to show that the method was a compromise between wireless and one-wire telegraphy.

The two communication stations were not connected by wire. A wire was placed along the fighting front with both ends extending into the ground, and current from a Rheumkorr coil or kindred apparatus was conveyed along it. Installed parallel to this wire, and some distance in advance of it was a similar wire, in which current was induced by the first, thus permitting the sending of signals.

The method is thus broadly similar to wireless, except that the ground forms the medium, instead of the air. One would imagine, however, that although the method has the advantage that there are no intervening wires to be cut, it would be a very simple system to tap.

New York's Sanitary Districts.

New York has four square miles of sanitary districts with over 250,000 population per square mile. The New York city 1920 census committee, Dr. Walter Laidlow, executive secretary, has issued the following statement:

"The permanent map for the taking and tabulating of the population of New York on which the census of 1920 was enumerated has 3,327 sanitary district areas. Sixty-six of these in 1910 whose acreage totaled 2,866 then had a population of 1,298,657, an average of 454 persons per acre. If the whole area of New York in 1910 had been populated as densely as these 2,866 acres the equivalent of the whole population of the United States, and then some, as in 1910, could have been packed within the limits of Greater New York."

This number of persons per acre in congested districts is now reduced to 302, the statement adds.

Of Archeological Interest.

An interesting sequel has occurred to the fire which recently gutted All Saints' church, Petham, near Canterbury, says London Answers. During the examination of the walls with a view to reconstruction there were discovered beneath a layer of plaster paintings of two consecration crosses in colors, finely preserved, probably of the Thirteenth century. It is anticipated that from these it will be possible to determine the approximate date of the consecration of the church. Arrangements have been made for the careful removal of all the plaster and other interesting and, from an archeological point of view, valuable discoveries are expected.

Greatest Collection of Americana.

A wonderful new library is about being built in connection with the University of Michigan at Ann Arbor, and when it is finished it will house the greatest collection of Americana in the world. The collection and library are the gift of William C. Clements, a member of the board of regents of the university. The best part of his life and a great part of his fortune was spent in the collection of rare books of American history. The volumes alone are said to be valued at \$300,000.

Nearly Accurate.

The standard kilogram weights from which all other weights in the United States derive their calibration have just been checked by the bureau of standards and found to be accurate to within two one hundred millionths of their mass.

INTERLACHEN ITEMS

The Sunshine society celebrated Flag day at the home of the secretary, Miss Coburn. Flags were used lavishly in decorations, and a program devoted to our flag and its history was well carried out. Light refreshments were served at the close of the formal session.

Mrs. Alice Evans Bennett, assisted by Mrs. Annie McConnell, entertained at a community reception and gift shower in compliment to Mrs. Ethel Gillett Daniels, and the newcomers in the community. Mrs. Geo. Nichols and Mrs. Ella B. Andrews were the fortunate prize winners in the clever contest games.

Mrs. Alma Walker and her small sons are here from Sanford to spend a vacation season in her former home, and Mr. Walker will join them whenever his business duties permit.

Prof. Joseph Stock went down to Avon Park last week, combining the pleasure of a visit with his brother, "Our Ben," and his business interests in that section.

Mrs. Jennie L. Smith was entertained pleasantly in Keuka Thursday and Friday, a guest of Mrs. Lichthy at Mrs. Ervine's hostelry.

Miss Achsah Motes returned Friday from Jacksonville, where she spent an enjoyable vacation.

Mrs. Hester, of Hollister, was a guest of Mrs. E. A. Brush in the early days of the week.

The Townsend household enjoyed last week a brief visit from Mrs. Bruce, of Gainesville.

Mrs. B. T. Fitzgerald and her son, Mr. Lanier Fitzgerald, have come up from Palm Beach to spend the summer months in their cottage in Pleasant Valley.

Miss Jessie Roberts Evans came out from Palatka for a brief visit with her cousin, Mrs. Bennett. Mr. C. G. Pullins, of the Marion

ST. JOHN'S

Chigger Remedy

for sale at Hunt's Pharmacy. Mfg. by W. C. St. John, Green Cove Springs, Florida.

The Temperature Means Nothing If You Are Eating Our ICE CREAM.

A tempting dish of our ice cream, generously flavored with fruits, ripened to perfection by a tropical sun, would please the most particular connoisseur of good things to eat.

Housewives, especially, realize that Hunt's Ice Cream is the logical dessert—for it is a food as well as a confection—and it is absolutely PURE.

Children in Zurich's Spring Fete

With the exit of winter there is held a celebration in Zurich known as the six o'clock ringing feast. This photograph shows some of the children taking part in the parade in their quaint costumes, on their way to see the symbolic figure of winter blown away with fireworks and gunpowder.

Steam Shovel company, now an inmate of Mrs. Bennett's home, motorized to Palatka and returned Saturday.

Rev. and Mrs. S. B. Ross were business visitors to Palatka Friday. Mr. Canham loaded and shipped out this week a second carload of

watermelons of as fine quality and uniform good size as have ever gone out from this station.

The Parent-Teachers' association will hold its regular monthly meeting Saturday, June 24, at the town hall at 3:30 p. m.

When You Have Trouble With Any

part of your body, you consult a doctor. When your eyes trouble you either because you need glasses or because they are diseased you should see a doctor who knows.

Joint Accounts

A husband and wife or others whose interests are in common, often find it convenient to have a "joint" account. Such an account is opened in two names, and is payable to either person. In case of death of one, the account is held subject to the order of the survivor without the necessity of any legal formality. We will be glad to give further information to those interested in the subject of a joint account.

Chats With Your Gas Man

Sometimes you buy more meat than you need and some is wasted, but you do not get angry with your butcher for so. Or, you purchase more fruit or vegetables than you can use, but you do not complain to your grocer. If you throw little coal with the ashes, you do not blame the coal man. Leave the refrigerator open and waste the ice, but you do not rel with the ice wagon driver.

Of course not!

But sometimes when people carelessly waste gas, they blame the gas company. Neither merchants nor a gas company control the use you make of a commodity.

Your gas company, however, while urging you to use gas, you not to waste it.

Part of its service is to give you full value, and to see you pay only for what you use and to use all that you pay for.
